

Binomial smoothing, optimal on AIC (Kyphosis data)

Kyphosis: Optimal P-spline fit based on AIC using regressor age for binomial response kyphosis and logit link for $d = 2, 3$. R code in f-kyphopt.R

```
# Binomial smoothing, optimal on AIC (Kyphosis data)
# A graph in the book 'Practical Smoothing. The Joys of P-splines'
# Paul Eilers and Brian Marx, 2019

library(ggplot2)
library(gridExtra)
library(JOPSP)
library(rpart)
